

# T-1 High Speed Internet Connection

Using a Bright.net T-1 Internet connection, you can take advantage of the most stable, high-speed connection to the Internet that the industry can offer. Bright.net supplies higher speed connections that cover our entire service area. T-1 solutions are the prime vehicles for business connections. With a Bright.net T-1 connection you have access to the following:

## Scalable bandwidth

- Get as little or as much speed as you need.
- Replace multiple modem lines.
- Put an entire network of computers on-line.

## Dedicated Access

- Gives you connectivity 24 hrs. A day.
- Have a permanent IP address or subnet.

## Receive a host of free services

- Bandwidth monitoring of your own Internet connection.
- 100 Megabytes of webspace. Up to 25 free e-mailboxes.

## Bandwidth Pricing (T-1)\*\*

128kbs .....	\$199 per month
256kbs .....	\$265 per month
384kbs .....	\$299 per month
512kbs .....	\$359 per month
768kbs .....	\$399 per month
1.15Mbps .....	\$515 per month
1.54Mbps .....	\$599 per month

\*\*Hardware needed for T-1 service, Bright.net offers several options. Telco charges not included.

## Other Available Products: Web Hosting

- Consistent connection to the Internet and a capacity for high volume websites.
- Setup your domain on our web servers

## Server Co-Location

- 10 megabit connection on a fiber backbone.
- Great environment for hosting your service.

## Network Services

- Additional support services that extend beyond Internet access.
- Network professionals are available to assist in the analysis, implementation and administration of your network

## I-TRAP Intrusion and Attack Detection

- Verifies firewall integrity and internal network events.
- Detects attempted intrusions and events that are not logged by the firewall.

## Virus and Spam Free Email

- The latest spam and virus scrubbing technology to check each and every email you receive

This connection is ideal for companies or individuals who have a mission critical need for Internet access. Bright.net offers a service level that is above the industry standard.
